

A Project Report of
CSE Department Website

Submitted by

Gaddam Vindhya Sree R170238

Chelamannagari Alekya R170271

Kunteppa Gari Deekshitha R170297

Submitted to

Under the supervision of

Ms.Suneetha

Project Guide

Department of Computer Science and Engineering

As a part of

fulfilment of the degree of Bachelor of Technology in

Computer Science and Engineering.

Date: 30-09-2022

CERTIFICATE

This is to certify that the report submitted by G Vindhya Sree(R170238),CAlekya(R170271)and K Deekshitha(R170297) in fulfilment of the requirements for the award of Technology in Computer Science and Engineering is a bonafide work carried out by her under my supervision and guidance.

Mr.P.Harinadha,

Head of Department,

Assistant Professor,

Computer Science and Engineering,
RGUKT, R.K Valley.

Ms.Suneetha,

Project Coordinator,

Assistant Professor,

Computer Science and Engineering,
RGUKT, R.K Valley

Declaration

We G Vindhya Sree(R170238), C Alekya(R170271) and K Deekshitha(R170297) hereby declare that this report submitted by me under the guidance and supervision of Ms.Suneetha madam is a bonafide work.

We also declare that it has not been submitted previously in part or in full to this university or other university or institution for the award of any degree or diploma

Date:30-09-2022,

Place:RK Valley.

G Vindhya Sree(R170238)

C Alekya(R170271)

K Deekshitha(R170297)

Acknowledgements

The success and final outcome of this project required a lot of guidance and assistance from many people and we are extremely privileged to have got this all along the completion of our project. All that we have done is only due to such supervision and assistance and we would not forget to thank them.

We would like to express our special thanks of gratitude to Ms.Suneetha for her guidance and support in completing our project.

We are grateful to Ms.Suneetha for encouragement and more over timely support and guidance.

At the outset , I would like to thank Rajiv Gandhi University of Knowledge Technologies, RK Valley for providing all the necessary resources for the successful completion of our course work.

With Sincere Regards,

G Vindhya Sree

C Alekya

K Deekshitha

Abstract

Main objective of CSE Department website is know each and every thing about CSE department.

By looking at this website that contains CSE Faculty details, Students details, Classrooms, Syllabus in each Sem, Labs, Placement Office and many more. The entire details of the CSE department are fetched in this website so that we can easily know the updates of the department by visiting this website.

The project uses Web Technologies like HTML, CSS, BOOTSTRAP and JAVASCRIPT.

1.Introduction

1.1 Website(CSE)

1.1.1. Introduction

A website is a set of related web pages typically served from a single web domain. It is a collection of web pages ,images ,videos other digital assets that is hosted on one or more web servers, usually accessible with internet.

The pages of a website can usually accessed from a common root URL called the homepage and usually reside on the same physical layer.

2.Technologies

2.1 HTML

HTML is an acronym which stands for Hyper Text Markup Language which is used for creating web pages and web applications. It is a markup language based for crating attractive web pages with the help of styling and which looks in a nice format on a web browser. A HTML is made of many HTML tags and each HTML tag contains different content.

2.1.1 Hyper Text

Hypertext simply means “Text within Text.” A Text has a link within it is a hypertext. Whenever you click on a link which brings you to a new webpage, you have clicked on a hypertext.

2.1.2 Markup Language

A Markup language is a computer language that is used to apply layout and formatting conventions to a text document. It makes the text more interactive and dynamic.

2.1.3 Web page

A Web Page is a document which is commonly written in HTML and translated by a web browser. A web page can be identifies by entering an URL.A web page can be of the static or dynamic type.

2.2 CSS

CSS is an acronym stands for Cascading Style Sheets, which describes how HTML elements are to be displayed on screen ,paper or in other media. It saves a lot of work .It can control the layout of multiple web pages all at once. External style sheets are stored in CSS files. With an external style sheet file, you can change the look of an entire website by changing just one file.

It is used to define styles for your web pages, including the design, layout and variations in display for different devices and screen sizes.

2.3 JAVA SCRIPT

Java Script is a scripting or programming language that allows you to implement complex features on web pages ,every time a web page does more than just sit there and display static information for you to look at displaying timely content upgrades, interactive maps, animated 2D/3D graphics, scrolling video jukeboxes, etc., It is the third layer of the layer cake of standard web technologies, two of which (HTML and CSS) we have covered. It enables you to create dynamically updating content, control multimedia, animated images and pretty much everything else.

2.3.1 Scripting Language

A Scripting Language that employs a high-level construct to interpret and execute one command at a time. In general ,scripting languages are easier to learn and faster to code in than more structured and compiled languages.

2.4 Boot Strap

Boot Strap is powerful toolkit which is a collection of HTML,CSS and Java Script tools for creating and building web pages and applications. It is a giant collection of handy and reusable bits of code written in HTML,CSS and Java Script. It is a free and open source tool collection which is easy to develop faster easier, responsive and mobile-first websites. Boot Strapping describes a situation in which an entrepreneur starts a company with little capital, relying on money other than outside investments.

3 Modules

3.1 Home

A Home page includes every detail or every sub module of the website where we can cover all details regarding the website in brief. The introductory page of a website, typically serving as a table of contents for the site. It is a web

page set as the default or start-up page on a browser. For a web user, the home page is the first web page that is displayed after starting a web browser like Netscape's Navigator or Microsoft's Internet Explorer. The browser is usually present so that the home page is the first page of the browser manufacturer. However you can set it to open to any website.

3.2 About Us

The about us page is often a reflection of the purpose and worth of the university and its founders, director, chancellor, vice-chancellor etc., Finally the page can also incorporate contact and history of the university. One way to view the about us concept is as a text self-portrait or short autobiography created by a business. It communicates the story of the university and how it was started. It showcase the history of the university and its uniqueness.

3.2.1 CSE Toppers

The CSE Toppers page Contains the details of students who achieved greater heights in IT sectors and who start Startups and who settled well in their career.

3.3 Academics

Academics module is the one which consists courses ,academic calendar ,library ,labs , time table, etc., It contains the details of academic activities such as exams , projects , internships , documentations, research papers , etc.,

3.3.1 Courses

In education a course is a unit of teaching that typically lasts one academic term, is led by one or more instructors (teachers or professors), and has a fixed roster of students. A course usually covers an individual subject. It represents the subject of every odd and even semesters. Every semester contains particular number of subjects. Every academic year contains two semesters.

3.3.2 Academic Calendar

Academic calendar is a schedule of all the events that occur in an academic year. These events may include examination dates, spring break or reading week and the last day of the semester. Academic calendar includes the dates that can be presented at the semester level or as a part of an academic year- long calendar. An academic calendar is to keep students, faculty and staff reminded of key dates throughout the academic semester and year. It can also be useful for prospective

students, alumni and parents as well. Each educational institution creates its own academic calendar with their own defined dates.

3.3.3 Labs

Labs define about the number of labs per semester and what are those labs according to the semester of specific subjects. It gives the detailed information about the lab schedule of a semester. It defines scheduled events regarding the conducting of labs. Labs are the practical part of the courses. We learn theoretically in classes, we can implement them practically in lab sessions.

3.3.4 Library

Library is a huge collection of different books of every field. We have a central library in our college. Through this every student can habituate self-learning as their habit which increases the student's IQ levels by reading books. Library traditionally, collection of books used for reading or study, or the building or room in which such a collection is kept. The primary purpose of the central library is to provide resources and services in a variety of media to meet the needs of the individuals and groups for education, information and personal development including recreation and leisure.

3.3.5 Time Table

A plan of times at which events are scheduled to take place, especially towards a particular end. A schedule of events that organizes college activities throughout the day, week, term or year. For each activity, a time table generally specifies a starting and ending time. Typically the shortest duration on the time table is called a period. It also reduces the confusion while learning. Students are very clear about the subject they have to study in a particular period.

3.4 People

3.4.1 Faculty

People includes the both faculty and students. This page gives the details of the faculty, their qualification, their mail addresses etc. This page navigates to the page which gives the official details of every teacher.

3.4.2 Students

This sub module navigates to the details of the students present in the CSE department in final year. It shows the ID number of every student and count of the students in the page.

3.5 Activities

3.5.1 Events

Events are the planned occasions that happened due to particular cause. We conduct many events such as Vibha 2K22 on behalf of celebrating Farewell for final year students, Chaitra2K22 for celebrating Dussehra, Pramidha 2K22 for celebrating Diwali, Abhiyanth as a technical fest. These events are organized, managed and monitored by the students. These events organised and conducted every year.

3.5.2 Blogs

A regularly updated website or web page, typically one run by an individual or small group, that is written in an informal or conversational style. It is a discussion or informational website published on the world wide web consisting of discrete, often informal diary-style text entries(post). Posts are typically displayed in reverse chronological order so that the most recent post appears first at the top of the web page. Some of the blogs created by our students are Pennman for writing small blogs and Kavitha Samputi for poetry etc.,

3.5.3 Student Group

Students groups are the community of several students to perform some activities. We have E-Cell, an entrepreneurship Cell which gives boost to the innovative ideas raised by students. This Cell works and conducts some activities to create awareness about entrepreneurship. We have an organization called HHO-Helping Hands Organization, it collect the money from students and teachers or some other donars and use them to the needy people such as poor students or provide financial help which encourages students growth in their help.

3.6 Placements

3.6.1 Recruiters

Recruiters are the companies that visited campus to recruit the students for their company. The top most companies that visited our companies can be visible in this page. The companies such as TCS, Wipro, Infosys, Cognizant, Accenture etc., The recruiters are the HR's of the respective companies conduct the assessments and pick the students who have desired skill which meets the company requirements.

3.6.2 CDPC

CDPC- Career Development Placement Cell is a group of faculty, who coordinates every activity of placements like conducting sample exams for the students, organising company persons to make them to visit the campus for recruiting, giving career option to choose their future path which helps in their career growth. CDPC cell organise and conduct every company's recruitment by the respective companies.

3.7 Contact Us

This module gives the contacting information about the CSE department. It contains a little information of the CSE department. It contains the address of the CSE department such as geographical location, telephone number, pin code number, department location, department website, head of the department and department in-charge etc.,

Founding of RGUKT

The idea to create RGUKT germinated in April 2007, at a meeting between Prof. D.Raj Reddy and Prof. K.C. Reddy who then took idea to the then Chief Minister of Andhra Pradesh, Dr. Y.S.Rajashekar Reddy. Dr. YSR by then was not happy with the opportunities available to the rural youth and wanted to start a University modeled on IIT to exclusively concentrate on rural youth in imparting technology oriented higher education for bettering their employment potential.

In March of 2008, the AP Government created RGUKT with three campuses through an Act of the Legislature as a full-fledged university which would initially admit approximately the top 1% of the rural students into the three residential campuses located at RK Valley, Basara and Nuzvid. The first batch of about 6,500 tenth class graduates was admitted into the six year integrated B.Tech program in August of 2008. The initial selection was based on the 'Mandal Best' model wherein students securing the top marks in SSC examination in every mandal were selected.

Department of Computer Science and Engineering- B.Tech Computer Science & Engineering

A small, low-resolution image of a person, possibly a student or faculty member, is displayed within a container.

A small, low-resolution image of a person, possibly a student or faculty member, is displayed within a container.

Prof. K.C.Reddy

Prof. K.C. Reddy (1946) has a PhD in economics; taught Economics at Andhra University for over 3 decades before joining Andhra Pradesh Government as Chairman, State Council of Higher Education in 2004. Also served as Chairman Rajiv Yuvakiranalu, a flagship Skill Development and Employment Programme of united AP Government during 2011-2014; served as President of the Indian Economic Association.

<h5 style="color: REd;">Sandeep Konam</h5>He is a passed out from R08 batch.He
is the co-founder of Abridge application
in 2018.He did masters in roboticsat Carnegie Mellon University in Pittisburgh.He is into
the page of Forbes at age 25,The
reason behind designing this application is the problem the company aims to solve is
nearly two-thirds of patients surveyed
by Abridge forgot more than 40 percent of the conversations they havehad with their
doctors including their key details,like
what to do next to stay healthy.His company has combined a consumer app with
artificial intellgence to securely transcribe any
medical conversation that a patient chooses to record.

<p align="center" style="color: Red;">Review of RGUKT IIIT RK-Valley</p>

Rgukt Rk Valley, one of the premier technical institution in Andhra Pradesh. An autonomous institution, established by an act of erstwhile AP. It's main aim is to cater the educational needs of gifted rural youth. About top 1% of 10th class cleared students in AP are directly admitted into 6 years integrated B.Tech course. RK Valley is a green lush, serene campus which spreads over 500 acres. All the facilities like bank(SBH), post-office, canteens, stores etc.... all situated inside the campus. It is completely ragging free campus. Offers integrated B.tech in six major branches and it also offers minor programs. All the faculty are young, dynamic, and well qualified. They adopt advanced techniques in learning like learning by doing and learning by example, backed by enormous IT resources. Each student will be given a laptop at the time of joining. Internet is available in the academic block through LAN(Local Area Network) and through Wi-Fi in Hostels. The institute has well equipped laboratories for all departments and it also possess high end equipment like 3D-Printer, XRD, SEM etc..... Students work on many things in addition to academics and pioneering in the global platform. It is a budding institution, and with proper direction and management, It can become one of the premier institute in India.</p>

</div>

</div>

<div class="row">

<p align="center" style="color: Red;">A PUC student's life at RGUKT, IIIT RK Valley</p>

We know intermediate age is crucial age in very one's life, where thought at that age will drive their rest of the life.

PUC in RGUKT is good.

Introducing University level education at this age the use of laptops.

Introducing University level education at this age the use of laptops.

stress free mode of teaching.

Interaction classes with seniors.

Good source for knowledge Ex: Library and Wifi facilities.

</p>

</div>

<div class="row">

<p align="center" style="color: Red;">What is it about having women in politics that creates a huge impact on their community?</p>

For instance, we have fewer than 5% of moms with young children in Congress. It is no wonder we don't have plans in place that disproportionately impact women and children like affordable childcare and paid family leave, which winds up giving everyone a lift.

I looked around at all of my elected officials and realized I was represented by white men at every level of government. Seeing women's success in the last cycle encouraged me to run now.

We need to be part of the decision-making process, that would be better than relying on others to make decisions for us.

CSE Toppers

Founding of RGUKT

The idea to create RGUKT germinated in April 2007, at a meeting between Prof. D.Raj Reddy and Prof. K.C. Reddy who then took idea to the then Chief Minister of Andhra Pradesh, Dr. Y.S.Rajashekar Reddy. Dr. YSR by then was not happy with the opportunities available to the rural youth and wanted to start a University modeled on IIT to exclusively concentrate on rural youth in imparting technology oriented higher education for bettering their employment potential.

In March of 2008, the AP Government created RGUKT with three campuses through an Act of the Legislature as a full-fledged university which would initially admit approximately the top 1% of the rural students into the three residential campuses located at RK Valley, Basara and Nuzvid. The first batch of about 6,500 tenth class graduates was admitted into the six year integrated B.Tech program in August of 2008. The initial selection was based on the 'Mandal Best' model wherein students securing the top marks in SSC examination in every mandal were selected.

Why Computer Science Engineering is the best among all ?

The computer science field is full of opportunities, and high-growth careers, ranging from software development to cybersecurity. Computer science employment are expected to grow by 13% between 2020 and 2030, according to the latest estimates by various researches. With the fast changing connected world, computer science is a key area for future careers across the world. The term computing covers every kind of digital technology that we use to create, store, communicate, exchange and use information.

LIBRARY

- To procure library collection as basic requirement to enriching quality education.
- The collection includes Text Books, Additional Reading Books, Reference Books, Newspapers, Magazines and Periodicals etc.,
- Encouraging self-learning among the students.
- Keeping the libraries in the late hours after the class room sessions.
- Motivating the students towards study culture
- To procure books on personality development etc.

ABHIYANTH 2k'18

Thursday 22 March 2018 from 12:00-23:59 UTC+05:30

Abhiyanth, an usher event to showcase the technical lastingness and expertise we possess, that a competing engineer is anticipated to possess, is a Techno-Management Fest of RGUKT RK Valley campus in the month of March. This is a national wide fest focused to expose the future engineers and their role in tomorrow's world! It exemplifies the knowledge of students from all the departments and exhibits their technical and cultural brilliance.
